

The latest skid steer loader by LOCUST has over 30 years of experience backing it. LOCUST is the direct successor of the loader UNC produced by the same manufacturer with many years of experience, development and tradition combined to make this new loader.

L 753

since the first products by UNC were introduced in 1981, the skid steer front loader manufactured in

Slovakia has undergone many years of development culminating into today's LOCUST loaders. These loaders have been certified by testing and have proven themselves in a variety of practical applications (construction, agriculture, winter maintenance of roads and car parks) in many countries and under different weather and terrain conditions.

Combining years of experience and feedback from our satisfied clients, LOCUST is able to improve on the high-quality components such as engine, hydrostatic drive and construction design, offering high work efficiency and the most favourable price/performance ratio in its class.

Because of its dimensions and characteristics, it is highly flexible and easily manoeuvrable making it ideal for narrow and confined spaces. It is especially suitable for the agricultural sector and municipalities.

LOADER FEATURES

- low operating expenses
- high work efficiency
- easy operation
- high comfort
- unrivalled view from the cabin
- simple servicing and maintenance
- unobstructed accessibility of parts and components
- standard and ISO connection of attachments
- a gearbox with gear drives that has proved itself over time by use
- long lifespan

DIMENSIONS

TECHNICAL PARAMETERS

L753

Loader height	2,075 mm
Loader length with bucket	3,400 mm
Loader width with bucket	1,780 mm
Operating weight	3,180 kg
Tipping load	750 kg
Maximum speed	8 – 15 km/h
Bucket volume	0.43 m ³
Breakout force	25 kN
Tractive force	31.5 kN
Lifting force	19 kN
Engine type	YANMAR 4TNV 88 BDWI
Power	36.5 kW/49.6 HP
Drive type	hydrostatic
Hydraulic pump of the working equipment	constant
Distributor of working equipment	with open centre
Bucket balancing	hydraulic
Noise	101 dB
Standard tyres	10 – 16.5
